CSS PAGE LAYOUT PART I

Download the file at https://bit.ly/townsCT.

Unzip the file and you'll notice an .html file and several images in the folder. Double click the .html file to load it into your browser. There is no style information associated with this layout.

Write an external CSS file that displays the page in two columns with the first two logical divisions displayed in the left column and the other two displayed in the right column.

HINT: You may need to add additional logical divisions to the HTML to display the two columns properly.

SUBMITTING EXERCISES

To earn certification all exercises must be submitted and accepted.

1) When you've completed all of the HTML exercises, please zip them into a single file and submit to our Dropbox at http://bit.ly/CWDP2324.

2) Next, fill out the certification completion form at https://forms.gle/5EiUGCM6dGd1F2Py6.

Remember, that all of your exercises for each module should be included in a separate zip file.

GETTING HELP

We always want to ensure that your questions are answered. There are a number of ways to get in touch.

1) We operate a lively Discord server. Join us at https://discord.gg/tgxX2fCrv5 and you can ask your question on Discord. Mark and our team of instructional assistants monitor this Discord and answer questions ASAP.

2) This certification program is offered on several platforms. Most platforms have a Q & A section where you can post questions. We monitor these and respond as quickly as we can.

3) You may use our question hotline email at questions@dollardesignschool.com.

Remember to always to include which section your question is from and send any code you're working on!
